

Chronic Illness Benefit medicine list (formulary) for the Prescribed Minimum benefit (PMB) Chronic Disease List (CDL) conditions and the non-CDL condition 2019

Who we are

Netcare Medical Scheme (referred to as "the Scheme"), registration number 1584, is a non-profit organisation, registered with the Council for Medical Schemes.

Discovery Health (Pty) Ltd (referred to as "the administrator"), is a separate company and an authorised financial services provider (registration number 1997/013480/07), that administers the Netcare Medical Scheme.

Important information you need to know

We may change the information contained in this document from time to time. We will communicate any changes to the way we pay medicines when we make these changes.

The Chronic Illness Benefit (CIB) is managed by Netcare Medical Scheme Rules. The use of the benefits and programmes linked with the Chronic Illness Benefit are subject to specific conditions and rules. Members must make sure that they know these rules and conditions. The Netcare Medical Scheme Rules can be accessed on www.netcaremedicalscheme.co.za.

Any instructions or advice on medicines and the management of the member's condition are intended to add to, and not replace, the knowledge, expertise, skill and judgement of the member's doctor, pharmacist or other healthcare professional.

The Chronic Illness Benefit (CIB) covers a comprehensive list of chronic conditions that includes asthma, diabetes, high cholesterol and high blood pressure. The Chronic Disease List (CDL) is a defined list of chronic conditions we cover according to the Prescribed Minimum Benefits.

You have full cover for approved medicine on the Scheme's medicine list. Approved medicine not on the medicine list will be funded up to the Maximum Medical Aid Price (MMAP).

Netcare Medical Scheme reserves the right to change the benefit at any time.

For more information call us on 0861 638 633 or visit us at www.netcaremedicalscheme.co.za.

About some of the terms we use in this document

There may be some terms we refer to in the document that you may not be familiar with. Here are the meanings of these terms.

Terminology	Description
Benefit year	A benefit year refers to the benefits a member is entitled to during a calendar year, that is to say 1 January to 31 December. This medicine list (formulary) is applicable for 2019 only.
Prescribed Minimum Benefit (PMB) conditions	<p>In terms of the Medical Schemes Act of 1998 (Act number 131 of 1998) and its regulations, all medical schemes have to cover the costs related to the diagnosis, treatment and care of any life-threatening emergency medical condition, a defined set of 270 diagnoses and 27 chronic conditions. These conditions and their treatments are known as the Prescribed Minimum Benefits (PMB).</p> <p>All medical schemes in South Africa have to include the Prescribed Minimum Benefits in the health plans they offer to their members. There are, however, certain requirements that a member must meet before he or she can benefit from the Prescribed Minimum Benefits. The three requirements are:</p> <ul style="list-style-type: none"> • The condition must be part of the list of defined PMB conditions • The treatment needed must match the treatments in the defined benefits on the PMB list • Members must use the scheme's designated healthcare service providers.
Chronic Disease List (CDL)	A defined list of chronic conditions we cover according to the Prescribed Minimum Benefits.
Non-CDL condition	An additional chronic condition covered by Netcare Medical Scheme.
Medicine class	This describes medicines that have similar chemical structures or similar therapeutic effects.
Active ingredient	This is the main substance in a medicine that is responsible for the clinical action on a human body.
