MEMBERSHIP

Who is eligible for membership to the Netcare Medical Scheme?

- The Netcare Medical Scheme is a closed medical scheme and membership is restricted to permanent employees, pensioners, disability and continuation members of Netcare Limited as defined in the Rules of the Scheme of Netcare Limited.
- At the time of their application or at any time thereafter, employees who join the Scheme may apply to have children and/or adults added to their membership as dependants. Dependants have to qualify for Scheme membership.

Who is not eligible for membership to the Netcare Medical Scheme?

- Members of the Scheme who resign from the employment of Netcare Limited or a subsidiary of the Group, together with their dependants.
- Employees who were not members of the Scheme before retirement or the termination of their services on account of ill-health or other disability are not eligible to become members of the Scheme.
- The dependants of a deceased member who initially retain membership after the death of the main member, but who later resign from the Scheme for any reason whatsoever, are not allowed to re-join as members once they have resigned.
- Those dependants of deceased members, or members who are retirees or who suffer from ill-health and disability, lose their membership to the Scheme if the Scheme terminates their membership as a result of non-payment of contributions. Kindly note, that you will not be able to pay up the premiums and re-join the scheme as unpaid contributions result in a loss of continuation status.

Retention of membership in the event of retirement, ill-health or death

- Members may retain their membership of the Scheme in the event of retirement or when their employment is terminated by Netcare Limited or a subsidiary of the Group on account of ill-health or other disability.
- Registered dependants may continue membership in the unfortunate event of the death of the main member as long as they continue to pay all contributions that become due and are specifically required to advise the scheme of their intention to exercise this right to remain.

BENEFITS

Hospital admission and treatment whilst in hospital

A copy of the authorisation, including possible exclusions, will be emailed to you (if details are available), your treating doctor and the hospital. Make sure to clarify any uncertainty you may have with your treating practitioner or the Scheme prior to your admission as some procedures, items and medication may not be covered. **Should the treating practitioner disregard the terms and conditions of the authorisation you will remain responsible.**

The benefit table shows the expenses that are covered by the Scheme and limits, co-payments, authorisation requirements and DSP or Preferred Provider arrangements that may apply. Please refer to the Pocket Guide that is included herewith for the actual values of limits applicable in the particular year; we would however like to highlight the following additional important information.

- Members are advised to, where possible, make use of specialists and other medical service providers on the Preferred Provider lists to optimise benefits and minimise co-payments for treatment while in hospital. Please visit the Scheme's website at www.netcaremedicalscheme.co.za for a list of DSPs and Preferred Providers of the Scheme.
- Specialists on the Preferred Provider list have agreed not to charge members co-payments or to request upfront payment. Should the Preferred Provider not adhere to this agreement please report this to the Scheme.
- Accommodation in a private ward is subject to a motivation from the attending practitioner.
- CT, MRI and PET scans in-hospital require a separate authorisation but have no co-payment.

Authorisation – a clinical confirmation, not a guarantee of payment

Pre-authorisation is provided based on a clinical decision and enables the Scheme to ensure that the treatment that is provided to you is clinically appropriate and cost-effective. It should be noted that pre-authorisation is not a guarantee of payment. Failing to obtain an authorisation may, in terms of the rules of the Scheme, lead to claims not being paid or substantial co-payments even if the medical condition is a PMB.

In-theatre dentistry

- It is important to note that dentist and dental surgeon accounts in-theatre is not paid from the unlimited hospital benefit but from the annual family dentistry limit. The theatre and anaesthetist accounts will be paid from the unlimited hospital benefit, a co-payment will apply. All in-hospital dentistry requires pre-authorisation. Refer to the Pocket Guide for details.
- When a maxillo-facial surgeon performs a standard dental procedure in theatre, the event is still payable from your annual family dentistry limit. Only when a maxillo-facial surgeon performs surgery pertaining to the jaw and face that is specialised and pre-authorised, will services be paid from the unlimited risk portion of the Scheme's benefits.

Dentistry

It is important to note that all dental work performed by a dentist or dental surgeon in- and out-of-hospital, as well as orthodontic work, forms part of the dental benefit and is covered by the annual family dentistry limit. Refer to the Pocket Guide for details.

The payment of unauthorised services

If you fail to obtain authorisation as required in terms of the rules of the Scheme, the Scheme may:

- Pay for the service from your available MSA in the event of a non-PMB diagnosis or alternatively reject the account if you do not have savings available; or
- Apply a penalty equal to the difference between 100% of the NMS tariff and the cost charged by the service provider for PMB diagnoses.

Cover for chronic conditions

- The Scheme covers approved chronic medicine for the 26 Prescribed Minimum Benefit (PMB) Chronic Disease List (CDL) conditions.
- We will pay your approved chronic medicine in full up to the Scheme Rate if it is on the Netcare medicine list (formulary).
- If your approved chronic medicine is not on the medicine list, we will pay your chronic medicine up to the Maximum Medical Aid Price (MMAP).
- The Scheme also covers approved medicine for the non Chronic Disease List condition, Depression in full up to the Scheme Rate, if it is on the Netcare depression medicine list (formulary). We pay approved medicines for this condition up to the Maximum Medical Aid Price (MMAP).
- You must apply for cover by completing a Chronic Illness Benefit application form with your doctor and submitting it for review. For a condition to be covered from the Chronic Illness Benefit, there are certain benefit entry criteria that need to be met.
- There is a DSP arrangement with Netcare Retail pharmacies.
- Use of a non-DSP pharmacy will require upfront payment from the member and the claim needs to be submitted to the Scheme in order for the member to be reimbursed. The Scheme will refund the member at the fee that would have been payable if the medication was obtained from a DSP. In other words, you may be liable for a co-payment if you do not use a DSP.
- If your Chronic Disease List (CDL) condition is approved by the Chronic Illness Benefit, the Chronic Illness Benefit will cover certain procedures, tests and consultations for the diagnosis and ongoing management of the condition in line with Prescribed Minimum Benefits.

Out-of-pocket expenses can be avoided by using alternative products that are less expensive. Discuss your options with your treating provider or pharmacist.

Asthma
Bipolar mood disorder
Bronchiectasis

Ulcerative colitis

How to avoid out-of-pocket expenses

- Confirm that we have your latest email and cell phone details as authorisation confirmation will be sent to you on the contact details that we have on system in the event of a hospital admission.
- Read the authorisation letter/ SMS and familiarise yourself with the terms and conditions i.e. scheme exclusions and limits associated with the procedure. If you have any questions or are not sure about anything please speak to your treating healthcare practitioner and/ or one of our Case Managers before you are admitted to hospital.
- Make use of a Netcare hospital. If you choose to use any other hospital in a non-emergency situation, it will result in a 25% co- payment on the Hospital account associated with the event.
- Make use of a Preferred Provider (a contracted doctor/ surgeon) as the Scheme has negotiated fees with them and they are not allowed to charge more than has been agreed with them by the Scheme. If they do charge more than the agreed upon rate please notify us without delay so that we can assist you in resolving the matter.
- Obtain a pre-authorisation for any specialist follow-up consultations that may be related to your hospital admission, as follow-up consultations do not form part of the hospital authorisation process.
- Few anaesthetists charge scheme rates. It is therefore a good idea to ask your doctor/surgeon which anaesthetist he/ she makes use of and negotiate fees with them upfront.

Preventative healthcare

Preventative care is an important part of maintaining good health. We encourage our members to make use of this special benefit as it can assist you in ensuring that you maintain your good health. These benefits are paid from the insured risk portion subject to the terms and conditions of the rules of the Scheme. Refer to the included Pocket Guide for more detail.

Palliative care is provided by nurses or care workers in partnership with the Hospice Palliative Care Association of South Africa. Registration is required to access this benefit.

Oncology – Advanced Illness Benefit (AIB)

Through the Advanced Illness Benefit (AIB), Netcare Medical Scheme aims to ensure that members with advanced stages of cancer have access to a comprehensive palliative care programme facilitated by Discovery HomeCare. This is a unique home-based service that offers you quality care in the comfort of your own home, with minimum disruption to your normal routine and family life. Palliative care is provided by nurses or care workers in partnership with the Hospice Palliative Care Association of South Africa. Registration is required to access this benefit.

Maternity Care benefit

The Maternity Care benefit has been specially designed to enhance the Scheme's maternity benefit for expectant mothers, helping to ensure a healthy, happy pregnancy. Expectant mothers are required to register on this programme from the 12th week of their pregnancy. At registration, we will provide you with a list of benefits available as well as any other information you may require.

Substance abuse focus

All Netcare Medical Scheme members have access to South African National Council on Alcoholism and Drug Dependence (SANCA) approved facilities as in-patients for drug and alcohol addiction. Please contact the Client Contact Centre for confidential support and a referral to an appropriate treatment facility should you be in need of assistance. Daily limits and annual limits apply and pre-authorisation is compulsory.

HIV/AIDS wellness programme

It has been demonstrated that by proactively managing HIV, those who have been diagnosed as HIV positive can live a healthy and fulfilling life. When you register for our HIVCare Programme you are covered for the care that you need. You can be assured of confidentiality at all times. Call us on **0861 638 633** or email hiv@netcaremedicalscheme.co.za to register.

Emergency medical evacuations

If you ever find yourself in a situation where you require emergency transport for medical reasons, you are in the very best hands. The Netcare Medical Scheme ambulance benefits, which are covered under insured benefits, include medically appropriate air and road response services provided by Netcare 911. This benefit is available by contacting 082 911.

A 25% co-payment will apply for voluntary, non-emergency use of any other service provider.

International travel cover

Only minor incidentals will be covered by the Scheme and we recommend that members purchase international travel insurance with a reputable travel agent in order to ensure comprehensive medical cover when abroad.

The Scheme will however reimburse members for treatment based on the equivalent Netcare Medical Scheme tariff (in South African Rands) for a medical service rendered as if the service had been rendered within the Republic of South Africa. There may be a substantial difference between South African and international tariffs which may result in the member being responsible for a significant shortfall.

Members are required to settle all healthcare accounts in the country of travel and to submit such claims to the Scheme upon return. It is important to understand that the Netcare Medical Scheme membership card is not recognised by healthcare providers outside of the borders of the Republic of South Africa and it will not be accepted by international agents and service providers.

The Scheme will permit members and beneficiaries on chronic medication to have an extra month's supply of chronic medication dispensed to them prior to departure, in cases where the journey is for a prolonged period. However, this must be arranged with the Scheme by contacting the Client Contact Centre before the medication can be dispensed. International travel cover does not include any form of repatriation that may be required.

Self service facilities

The Netcare Medical Scheme website has been specifically developed for the benefit of members, and by registering on the site, you are able to review your monthly statements, claims and personal information online.

To register, simply visit www.netcaremedicalscheme.co.za and register by entering your membership number and identification or passport number.

ADMINISTRATIVE REQUIREMENTS

Claims administration

In order to qualify for benefits a claim must be submitted to the Scheme not later than the last day of the fourth month following the month in which the service was rendered. If you believe a claim has been rejected in error, you have 60 days to report the error and resubmit the claim failing which the claim will be classified as stale.

As the member of the Scheme you are responsible for monitoring and reviewing your monthly statement and for acting promptly where a claim is not reflecting, or has not been paid. This will ensure that such claims do not become stale. Claims submitted after they have become stale will not be paid by the Scheme (in line with Regulation 6 of the Medical Schemes Act No.131 of 1998).

Members who pay cash for any services received should remember to submit the claim with the receipt as proof of payment using the appropriate contact details of the Scheme as provided in this Membership Brochure or communicated by the Scheme from time-to-time.

Members will be reimbursed at the relevant Scheme Rate (refer to the Pocket Guide for details) and you may request the Scheme in writing for differences between claimed amounts and benefit amounts to be settled from your Member Savings Account (MSA). This can only be done if your MSA reflects a positive balance.

Members are responsible for ensuring that the Scheme is informed of any changes in their banking details. Please note that changing your banking details with your Human Resources (HR) Department does not update your banking details with the Scheme.

Payment of claims is always subject to Scheme rules, tariffs, limits and Managed Care Protocols and Guidelines may apply.

Remember to obtain pre-authorisation (refer to the Pocket Guide for the details of pre-authorisation requirements) at least 72 hours prior to a planned event or within 72 hours following an emergency.

Membership statements

Claims notification will be sent electronically where email details are available. Member statements will also be available on the Scheme's website www.netcaremedicalscheme.co.za

Member Savings Account (MSA)

- All members contribute 15% of their total monthly contribution into their Member Savings Account. For example, if your total Scheme contribution is R1 000, an amount of R150 (15% of R1 000) will be allocated to your savings and R850 towards the risk pool.
- If you have a positive savings balance in your MSA at month-end you will receive interest on that amount.
- If you resign from the Scheme your savings balance will be kept for a four (4) month period in order to settle any claims that were incurred before resignation. After the four (4) months, the balance will be paid out to you or transferred to your new medical scheme. If this pay-out occurs before month-end, you will not receive interest on the part-month.
- On termination of membership, the Scheme may use your savings to offset any debt owed by the member which may include outstanding contributions.
- The Scheme advances six (6) months of savings to members effective 1 January and 1 July of each year. Overdrawn savings (i.e. if you have used an amount from your advanced savings that exceeds the amount you have contributed at the time of your resignation) will have to be repaid if you resign from the Scheme.
- Payments from your MSA will be done at 100% of the NMS rate subject to funds being available at the date on which a claim is processed.
- You may give written instruction to the Scheme to fund any co-payments or shortfalls you may be responsible for from your MSA.
- If you have savings available at the end of the financial year (31 December) your savings will be carried over to the next year.
- In the unfortunate event of your death, the savings balance due to you will be transferred to your dependants in the event that they decide to continue membership of the Scheme or, in the absence of such dependants, paid into your estate.

- Members admitted during the course of a financial year are entitled to the benefits set out in Annexure B of the official Scheme rules, with the maximum benefits being adjusted in proportion to the period of membership calculated from the date of admission to the end of the particular financial year.

Unless otherwise decided by the Board, benefits in respect of medicines obtained on a prescription are limited to one (1) month's supply for each such prescription or repeat thereof.
- Laparoscopic approach procedures except if specifically authorised.
- Any services which are not mentioned in the rules that are not rendered in terms of accepted protocols or that are not aimed at the treatment of an actual or supposed condition or deficiency, disadvantaging or endangering essential bodily functions.

IMPORTANT TERMINOLOGY

Co-payment

A co-payment is a fee that members are required to pay directly to the service provider if there is a difference between the cover provided by the Scheme and the cost charged by the service provider. Co-payments will also apply if you do not make use of appointed DSPs.

Emergency medical condition

An emergency medical condition means any sudden and unexpected onset of a health condition that requires immediate medical or surgical treatment, where failure to provide such treatment would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part, or would place the person's life in serious jeopardy, as defined in the Medical Schemes Act, No. 131 of 1998.

MMAF (Maximum Medical Aid Price)

MMAF (Maximum Medical Aid Price) is a reference price model which serves as a guide to determine the maximum medical scheme price that schemes will reimburse for a pharmaceutical product that is interchangeable with other more cost-effective alternatives. Co-payments that may result from MMAF pricing can be avoided by using alternative products that are less expensive, such as generic medicine. The use of the most appropriate alternative should always be discussed with your treating practitioner or pharmacist.

Netcare Medical Scheme Tariff (NMS Tariff)

The NMS Tariff is the tariff for medical services as approved by the Board of Trustees.

Priority emergencies

There are instances where treatment at a DSP out-patient or emergency department is classified as an emergency although it may not be a PMB. The Scheme will pay for such emergencies from the insured (risk) benefit and not from your MSA.

Preferred Provider

Preferred Providers are those healthcare providers with whom the Scheme has made special arrangements to provide members with effective and cost-efficient services. These providers will not request upfront payment from members. Unlike in the case of DSP arrangements, the Scheme does not restrict members to utilise the services of Preferred Providers.

Rather we recommend their use where they are available in order to optimise benefits and minimise co-payments.

Prescribed Minimum Benefits (PMBs)

Prescribed Minimum Benefits are defined in the regulations of the Medical Schemes Act, No. 131 of 1998, as being the minimum level of benefits that are available to all medical scheme members and their dependants. The diagnosis, medical management and treatment for these benefits are not limited and are paid according to specific treatment plans and conditions. Members are required to utilise Designated Service Providers for PMBs. A total of 270 diagnoses and 26 chronic conditions are listed as PMBs.

Ex gratia Policy

Ex gratia is defined by the Council for Medical Schemes (CMS) as 'a discretionary benefit which a medical scheme may consider to fund in addition to the benefits as per the registered Rules of a medical scheme. Schemes are not obliged to make provision there for in the rules and members have no statutory rights thereto'.

The Board of Trustees may in its absolute discretion increase the amount payable in terms of the Rules of the Scheme as an ex gratia award. As ex gratia awards are not registered benefits, but are awarded at the discretion of the Board of Trustees, the Board has appointed an ex gratia committee who review these applications received and this committee is mandated to act on behalf of the Board in making decisions on behalf of the Trustees and the Scheme in this regard. Ex gratia requests are considered on an individual basis and any decision made will in no way set a precedent or determine future policy. Decisions taken by this committee are final and are not subject to appeal or dispute and do not set a precedent.
