	·	+ Important terminology		
Designated service provider (DSP)	Priority emerge	ncies	Emergency (definition a	as per medical schemes act, no. 131 Of 1998)
A Designated Service Provider (DSP) A Designated Service Provider (DSP) is a healthcare provider selected by Scheme as its preferred service provider to provide relevant healthcare s to its members. Failing to use the appointed Scheme DSP, except in case emergency, may lead to co-payments as the scheme has specifically con with these providers for your benefit	y the There are insta prvices is classified as to f an for such emerg	ncies nces where treatment at an out-patient or emerger an emergency although it may not be a PMB. The encies from the insured (risk) benefit and not from re consider a PMB, if you are unsure please contac	An emergency is deem Scheme will pay of a health condition that the MSA. Not all failure to provide medic	ed to be the sudden and, at the time, unexpected onset at requires immediate medical or surgical treatment, whe al or surgical treatment would result in serious impairme prious dysfunction of a bodily organ or part, or would pla

with these providers for your benefit. Preferred provider

Preferred Providers are those healthcare providers where members and dependants should not encounter obstacles in accessing services and who will not request upfront payment. Unlike in a case of DSP arrangement, the Scheme does not restrict members to utilise the services of Preferred Providers but rather recommends the use of these providers, where available, to optimise benefits and minimise co-payments.

Maximum medical aid price (MMAP) MMAP is a reference price model which serves as a guide to determine the maximum medical Scheme price that the Scheme will reimburse for an interchangeable multi-source pharmaceutical product. Co-payments that may result from MMAP pricing can be avoided by using alternative products that are less expensive. The use of the most appropriate alternative should always be discussed

with your treating Practitioner or Pharmacist.

the person's life at serious risk. Chronic disease treatment plans The Chronic Disease List (CDLs) provides for 27 chronic conditions for which medical schemes are obliged to cover the diagnosis and ongoing management.

In order to access these benefits, members are required to register on the Chronic Management Programme. Once you have registered your chronic condition, you gain access to a treatment plan, which will assist you in the management of your chronic condition. Medicinal treatment required is covered subject to authorisation, use of a DSP and generic substitution where appropriate.

The following codes will be funded from risk at 100% of NMS tariff. One (1) per beneficiary per annum	
Flu vaccination at DSP pharmacies	Scheme selected vaccine
Pap smear (pathology)	Female beneficiaries 13 years and older. Codes 4566 / 4559
